

Trusteer Rapport

After you log in to the application SOŽeBANKING you will see pop-up window informing you that Trusteer Rapport application is available to download:

The screenshot shows a pop-up window with a red border and a close button in the top right corner. At the top left is the logo for SOCIETE GENERALE MONTENEGRO. Below it, the text reads "Onlajn bezbjednost na koju se možete osloniti." In the center, there is a box titled "Preuzmite IBM® Security Trusteer Rapport®." containing three bullet points with icons: a globe for "Zaštiti svoje lične podatke i bankovni račun od krađe i identiteta i prevare.", a shield for "Radi uporedo sa antivirus rješenjima, blokira prijetnje od kojih Vas ti programi ne štite.", and a laptop for "Trusteer Rapport je djelotvoran, lak za upotrebu, i neće usporavati Vaš kompjuter." Below this box is a red button labeled "Preuzmite sada". At the bottom left are three links: "Saznajte više", "Pogledajte demo", and "Podsjeti me kasnije". At the bottom right is the IBM Trusteer logo.

At the window, you have more options as follows:

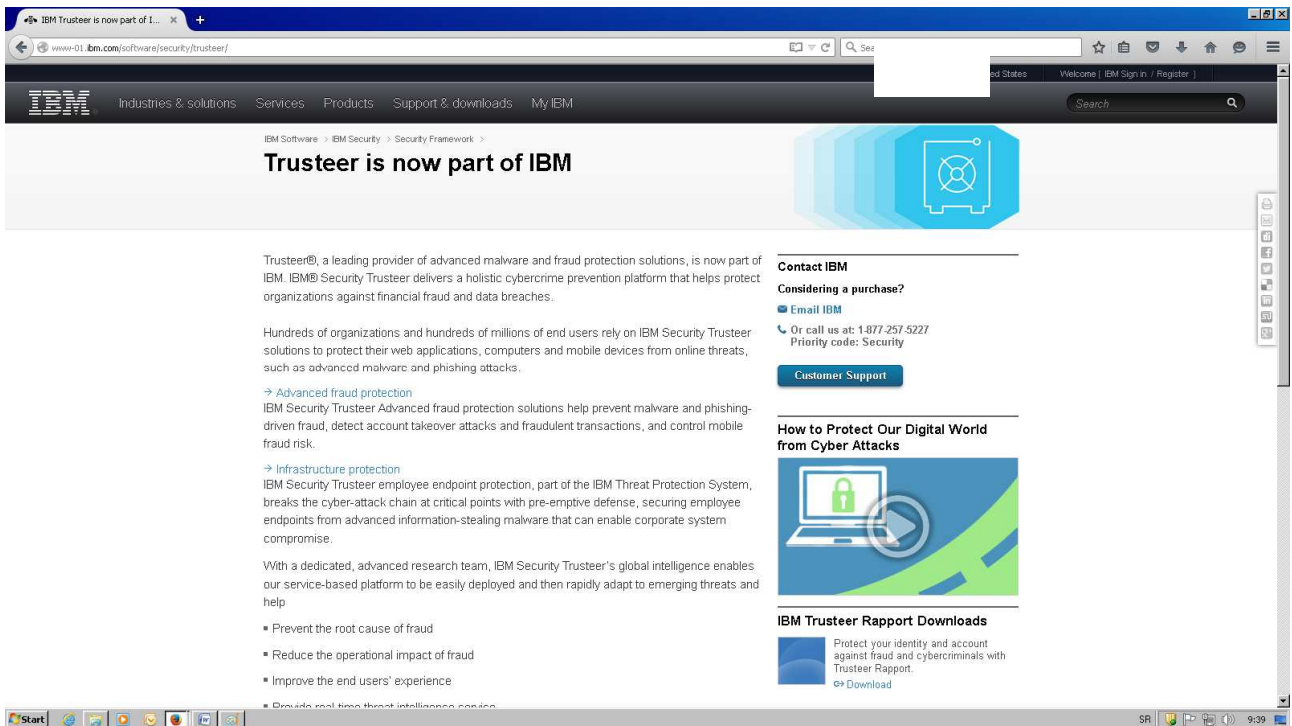

1. Preuzmite sada - To download application
2. Saznajte više - To learn more about application
3. Pogledajte demo - To view demo presenting how functions the application
4. Podsjeti me kasnije - To postpone downloading and to be remind later

In case if you choose option **Preuzmite sada / To download application** you will download application which will be automatically recorded on your computer. You will receive an option also to read instruction **kako da instaliram / how to install application**:

The screenshot shows the same pop-up window as above, but with a grey overlay box in the center. The overlay contains the text "Hvala što ste preuzeli Trusteer Rapport." followed by "(ne zaboravite da pokrenete instalaciju nakon što je fajl preuzet)". Below this text are two buttons: "Zatvori prozor" and "Kako da instaliram?". The "Preuzmite sada" button and the links at the bottom are still visible behind the overlay.

Choosing option **Saznajte više / To learn more about application** it will be automatically opened web site of IBM Company which is manufacturer of this application. On this web-site you may find more information about application:

If you chose option **Pogledajte demo / To view demo** it will be opened web site of the IBM Company where you will be able to see how application functions:
